

## Heavy Duty Platform Trolley

750kg Rated - Aluminium

### FEATURES

- ✓ Lightweight, corrosion-resistant construction ensures durability and long-term reliability, even in harsh environments.
- ✓ Box frame made from high-strength, fully welded aluminium channel for enhanced strength and stability.
- ✓ Perfectly designed for heavy-duty applications, offering superior performance under demanding conditions.

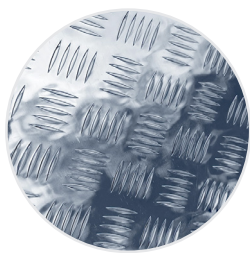

#### Featuring:

- Equipped with ergonomic handles that can be used at either end of the platform for convenient maneuverability.
- Features two rigid and two swivel heavy-duty castors, providing excellent stability and ease of movement.
- Constructed with a large, flat platform with a non-slip surface to securely hold items during transport.
